

Ratchet lashing

- The ratchet strap is mainly used for the transportation, movement, loading and storage of goods.
- It has the characteristics of safety, reliability, portability, simple operation, and no damage to the surface of the object.
- Accord with the standard of EU EN12195-2 and Australian AS/NZS 4380.
- The length can be customized according to the customer's requirements.
- The ratchet strap with metal fittings can be assembled freely according to the operating requirement.
- The temperature range is -40 and -100.
- Safety factor: 2:1

Ratchet Tie Down Straps

Model	Strap width(mm)	Lashing capacity(kg)	Breaking strength(kg)	Fixed length (m)	Total length (m)
