

Steel Coil Lifting Tool (“C” Type)

- Used for horizontal lifting the steel coil.
- Load range: 3.2~32T.
- It is made of low carbon high quality alloy steel.
- The data in the table are finalized product data.
- Steel Coil Lifting Tool can be designed according to the requirements of the customer.

WLL	Width of the steel coil (mm)	Inner Dia. of the steel coil(mm)	Size(mm)							Welf Weight(kg)
			A	B	C	D	E	H	R
